

WHAT WE DO

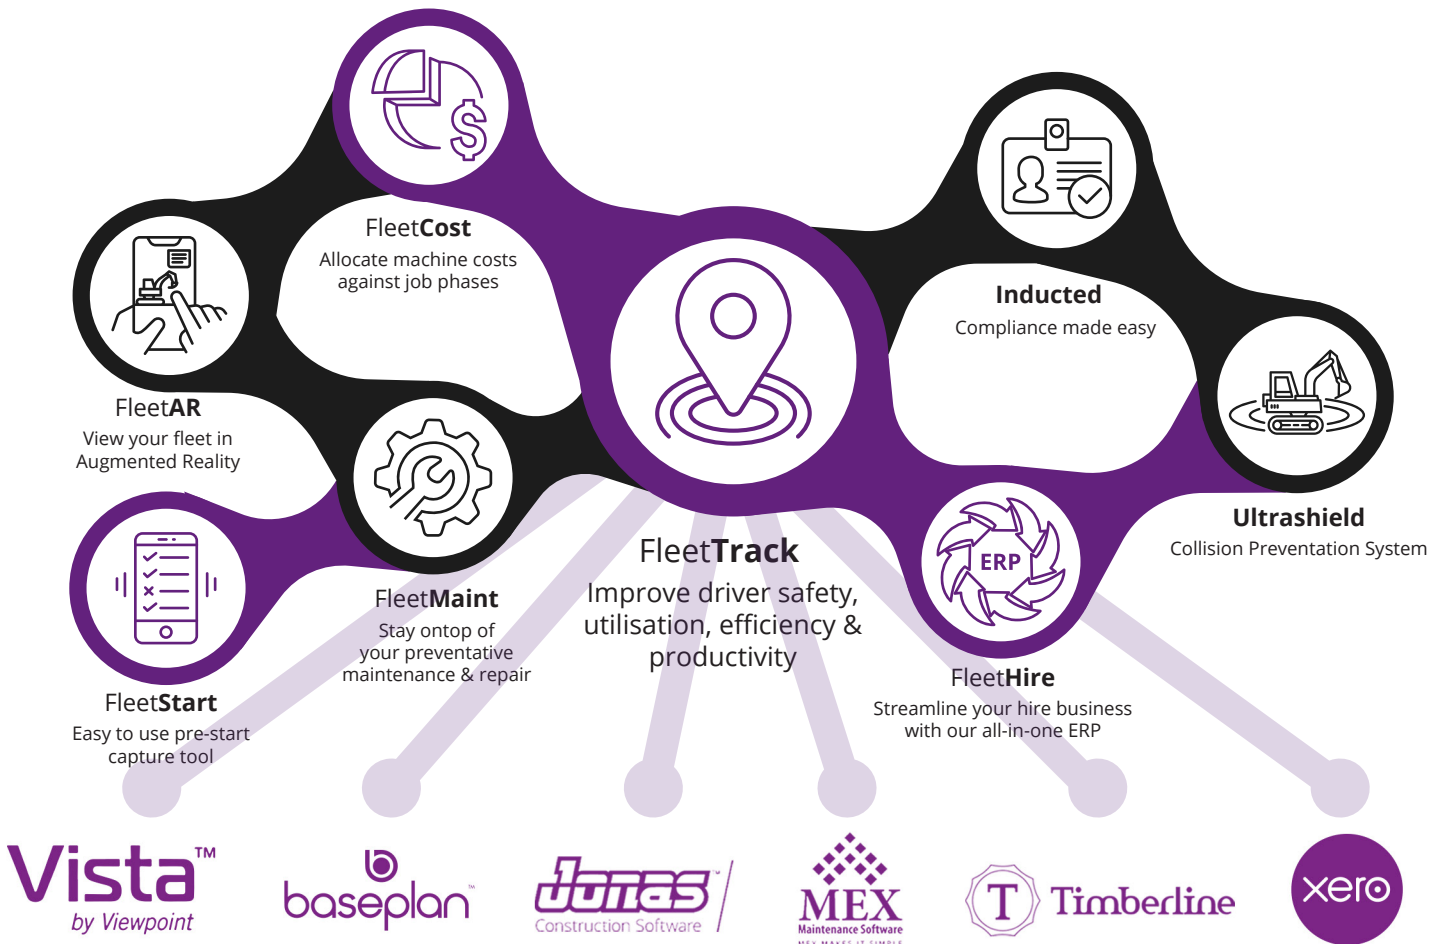

Your Fleet Technology Partner

Our mission is to deliver simple to use tools and services to enhance efficiencies, improve safety and compliance and minimise operational costs through increased automation and reduced wasted time and manual administration.

By utilising The Fleet Offices suite of programmes that are available today, simplify the mandatory management and administration tasks that keep your fleet operational and leave your competition in the dust.

We are not just another tracking company, our fully integrated programs protect, manage, induct, maintain and monetise your fleet. Get in touch now and find out how The Fleet Office can help you.

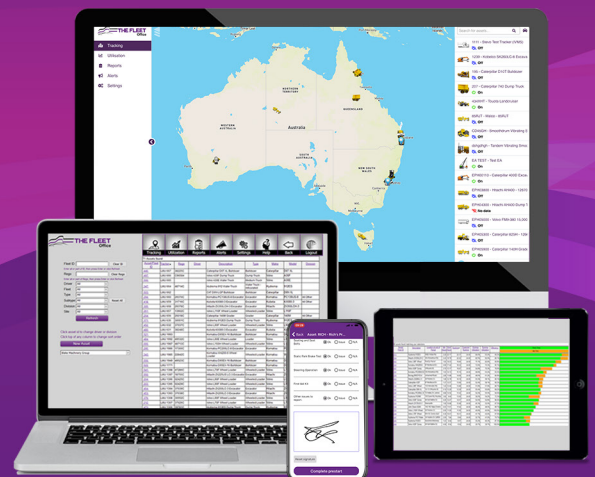

System Integration

Our fully integrated programs enable the data from the tracking system to flow from one program to another. Our holistic approach to fleet management delivers:

- Greater functionality
- Better control
- Simplified IT processes
- Time saving benefits
- Eases the sharing of information
- Centralises your systems and processes.

TFO's comprehensive API supports data exchange to numerous software systems that can be configured to match any existing ERP and maintenance programs.
